Communication with Stakeholders

Stakeholders are the groups or individuals who are able to influence corporate decisions and activities or are subject to influence from corporate decisions and activities, including government, employees, customers and consumers, partners, relevant agencies and communities, etc. Stakeholders' participation in CSR work can help deepen mutual communication, understanding, trust and cooperation, and is beneficial to the Company's development.

We adhere to the principles of honesty, interaction and equality, and actively establish and improve the mechanism of stakeholder participation. We introduce a variety of ways to collect and analyze the expectations and concerns of our stakeholders, enhance our communication with stakeholders, and invite them to participate in decision-making and activities related to our sustainable development. In addition, we learn from international standards and advanced experiences home and abroad to continuously improve stakeholder participation.

Improving Disclosure of Social Responsibility Information

In 2017, we released reports on our progress in overseas community building and green, low-carbon development, including the Special Report on Social Responsibility of Myanmar-China Oil & Gas Pipeline Project (Myanmar Section), Environmental Protection Communique, Roadmap for Low-carbon Development, Ecological Protection Program, and the Plan for the Upgrading of Pollutant Discharge Standards.

Expanding Public Communication Channels

In 2017, we encouraged stakeholders to participate in the Company's major decision-making and activities, and provided the media and the general public with a better understanding of CNPC. We introduced a variety of ways to enhance communication with our stakeholders including the staff congress, announcements, seminars, and dialogues. We also launched a series of activities including the Service Station Open Day, CNPC Open House Day, mystery customer visits, and other activities allowing visits to CNPC.

Case Study  The Students Invited to Visit CNPC

In partnership with China Youth Daily, we launched a campaign to invite outstanding student reporters from over 30 Chinese colleges and universities to visit CNPC. This campaign provided them with a good opportunity to get a real picture of CNPC, especially its strength, spirit and responsibilities.
Campaigns to Present an Open CNPC

“During the overhaul period, Dagang Petrochemical is open to the public, demonstrating the efforts of a refining and chemical enterprise, particularly its concept of environmental protection.”

——Wu Weimin, Deputy Director of the Bureau of Culture, Radio, TV and Film of Binhai New Area, Tianjin, and Director of the Civilization Office

“While maintaining advanced production technology and strict management, Dalian Petrochemical makes every effort to communicate with the public. It takes initiative to invite people from all walks of life to the enterprise, establishing a good corporate image and promoting the sustainable development of the company.”

——Sun Hui, Deputy of NPC of Ganjingzi District in Dalian and Director of Dalian Limestone Mine

“What a surprise! This plant area is even better than the residential quarter in landscaping. There is no odor in the air even at the time of equipment overhaul.”

——A deputy of NPC who has worked and lived in Dagang for more than 20 years and visited the installation inspection site of an oil refinery for the first time
“It is my first time to pay a field visit to a petrochemical plant. I am deeply impressed by the tangible efforts of Sichuan Petrochemical Project in environmental protection and safety. Misunderstandings and misinterpretations is mostly caused by a lack of information transparency.”

——Li Yulan, Deputy of NPC of Chengdu City

“Though a native of an oil province, I’ve never been to the factory of Dagang Petrochemical. On this visit, what impresses me most is that this place is so clean, free from any unpleasant smell. With bright tubes, fresh air and a quiet surrounding environment, this refinery is totally different from what I’ve imagined.”

——Deng Jinjin, a resident in Tianjin

“We used to regard the emissions from the chimney as uncontrolled exhaust gas emissions. Thanks to today’s explanations, we have learned that the white gas from the chimney is nothing but steam!”

——A visitor to Dagang PetroChemical

“My first visit to the refinery turned out to be a real eye-opener, for it has provided me with a totally different insight into the traditional petrochemical companies. It is so beautiful and highly automated here. The company has achieved both economic and social benefits.”

——A visitor to a Guangxi Petrochemical refinery
Increasing Routine Disclosures

Through the Company’s website and its microblog, WeChat, mobile platforms, barrier free reading and other new media, we enrich information disclosure on social responsibility and enhance the effectiveness of our communications.

Official Micro portal for Interactive Communication

In 2017, we set up our official micro portal to tell our stories and send our messages to the general public, and respond to public concerns.
• Issued the CNPC CSR Special Report on Poverty Alleviation and Development (2006-2015)

• Carried out CSR research
• Compiled and released the Guideline of CNPC on Fulfilled Corporate Social Responsibility
• Issued the Special Report on Social Responsibility for the West-East Gas Pipeline (2002-2013)

• Conducted researches on CSR indexes and guidance
• Compiled 2011 Corporate Social Responsibility: Best Practices from CNPC

• Issued CNPC in Sudan
• Promoted the sharing of CSR best practices at CNPC
• Established the Social Responsibility Management Committee and the External Experts Panel

• Held a CSR Forum
• Launched a website on environment and society

• Established the CSR reporting mechanism
• Opened to the public at csr@cnpc.com.cn
