About Us

As one of China's largest oil and gas producers and suppliers, CNPC is an integrated international energy corporation covering oil and gas operations, oilfield technical services, petroleum engineering construction, petroleum equipment manufacturing, financial services and new energy development. We possess oil and gas assets and interests in 35 countries/regions around the world. In 2020, CNPC ranked 3rd among the world's top 50 oil companies and 4th in the Fortune Global 500 ranking.

We are committed to providing CNPC solutions to the world's energy transition, China's efforts to have CO₂ emissions peak before 2030 and achieve carbon neutrality before 2060, and other climate and temperature control goals, in response to the United Nations sustainable development goals (SDGs). In 2020, we continued to improve our strategic system, put more emphasis on innovation-driven, green and low-carbon development, and enabled strategy to better play a leading role in sustainable development.

Our value

Green development and energy delivery, facilitating the growth momentum of customers and empowering people to enjoy a better life

Our philosophy

Patriotism, honesty, dedication, entrepreneurship

Our strategy

Innovation, resources, market, internationalization, green and low-carbon development

Assets & Profits

4.088.67 billion CNPC registered total assets of RMB 4.088.67 billion

87.52 billion Total profit of RMB 87.52 billion

315.75 billion Our tax and fees payments totalled RMB 315.75 billion

We recorded operating revenue

2.087.15 billion

of RMB 2,087.15 billion

600 million tons

cubic meters for the 14th

Exceeding 600 million tons for

400 billion cubic meters

1/7

The domestic tax and fees payments amount as 1/7 of the total paid by central enterprises

Resources Base

872.53 million tons

Our domestic newly added proven oil in place totalled 872.53 million tons

648.3 billion cubic meters

Our domestic newly added proven gas in place reached 648.3 billion cubic meters

International Business

35

We operated overseas oil and gas business in 35 countries/regions

78

We provided technical services and engineering construction in 78 countries/regions around the world

Oil & Gas Supply

106.507 million tons

33% Accounting for 33% of the

Our domestic marketing volume of refined products was 106.507 million tons

184.66 billion cubic meters

Our domestic marketing volume of natural gas was 184.66 billion cubic meters

Employee Development

1.3045 million We have a total of 1.3045 million employees

88% More than 88% of our overseas employees are local hires

were trained

145 billion We spent RMB 1.45 billion on emplovee training

100% Covering all frontline staff

Public Welfare

720 million

We invested RMB 720 million in public welfare undertakings globally, benefiting tens of thousands of people

330 million In China, we spent about RMB 330 million on poverty alleviation

635 projects A total of 635 poverty alleviation projects

400 villages

in 239 counties

1,526 employees We assigned 1,526 employees to serve as cadres in temporary positions and work in villages

production of 100.093 million tons of oil and gas equivalent

Figures in 2020

Oil & Gas Production

306_41 million tons

Domestic and overseas oil and gas production amounted to 306.41 million tons of oil and gas equivalent

102.25 million tons

We produced a total of 102.25 million tons of crude oil in China

52.7%

Accounting for 52.7% of China's total crude oil

1.87%

Domestic and overseas oil and gas production representing an increase of 1.87% year on year

130.6 billion cubic meters

Domestically, we produced a total of 130.6 billion cubic meters of natural gas

70%

Accounting for 70% of China's total natural gas

Environmental Protection

1.42%

The proportion of natural gas in our total energy consumption increased by 1.42% year on year

4.0% Y-o-y reduction of COD emissions

7.3% Y-o-y reduction of SO₂ emissions

1.190 hectares

1,190 hectares of land saved

4.5%

Y-o-v reduction of ammonia-nitrogen emissions

6.4% Y-o-y reduction of NOx emissions

9.65%

Y-o-y reduction of domestic GHG emissions per unit of oil and gas production

Technological Progress

17.34 billion

CNPC invested RMB 17.34 billion in research and development

Typically, the "4Mt/a coal indirect liquefaction technology innovation, development and industrialization" project won the first prize of the National Science and Technology Progress Award

domestic market share

693.000 employees A total of 693.000 employees

Supporting nearly 400 villages
